Professional Summary

Senior Software Engineer with 6+ years of experience building scalable web applications and distributed systems. Expertise in Python, JavaScript, and cloud technologies. Passionate about clean code, system design, and mentoring junior developers.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, Go

Frameworks: Django, FastAPI, React, Node.js, Express

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, CI/CD

Databases: PostgreSQL, MongoDB, Redis, Elasticsearch

Tools: Git, Linux, REST APIs, GraphQL, Microservices Architecture

Work Experience

Senior Software Engineer | TechCorp Inc. | Jan 2021 - Present

- Led development of microservices architecture serving 2M+ daily users
- Designed and implemented RESTful APIs using Python/FastAPI and Node.js
- Reduced API response time by 40% through caching and query optimization
- Mentored team of 4 junior developers and conducted code reviews

Software Engineer | StartupXYZ | Mar 2018 - Dec 2020

- Built full-stack features using React, Django, and PostgreSQL
- Implemented real-time notifications using WebSockets and Redis
- Deployed applications on AWS using Docker and Kubernetes
- Collaborated with product team to define technical requirements

Junior Developer | WebAgency | Jun 2017 - Feb 2018

- Developed responsive web applications using JavaScript and React
- Created REST APIs with Node.js and Express
- Participated in agile development and sprint planning

Education

Bachelor of Science in Computer Science

University of California, Berkeley | 2013 - 2017

GPA: 3.7/4.0 | Dean's List

Certifications

- AWS Certified Solutions Architect - Associate (2023)

- Kubernetes Certified Application Developer (2022)
